### Checklist for Breeders

To register a calf with the Society, you must complete the Breeder Application Form, which includes the registration details of the calf and the CMMS form.

Completed forms must be returned directly to the Irish Charolais Cattle Society office. Once received and verified, we will notify you of the applicable fees due and once payment is received the registration will be processed and the pedigree certificate issued.

All fees are paid either by cash/cheque or by EFT.

All stock bulls must have a DNA or Geno profile on record before calves can be registered. Please note, that all stock bulls born on/after 1<sup>st</sup> April 2024 must have a geno profile and be fully parentage verified.

---
