Ordering Semen from the Charolais Office

The Society, on behalf of our members, have for many years now been importing semen from the best bulls available. This semen is sold at a subsidised rate to members. The semen is for use in the member's own herd and should not be sold on to any other person.

Our on website you will find more information on each bull together with comments which we hope will be helpful in deciding which bull to put on your particular female.

To order semen from any of these bulls, please contact the office.
